To: CG MLCP(v)

Subj: RADIOLOGICAL SURVEY CGC STORIS

1. As requested by Ryan Young, MLCP Naval Engineering Division, LT Daryl Crutchfield, Safety and Environmental Health Officer, MLCPAC DET ISC Alameda, conducted a radiation survey on board the WMEC 38 Storis. The purpose of the survey was to determine if any of the radium painted dials was emitting radiation. The survey was conducted on 24 May 2007 while the CGC Storis was in dry dock. LT Anderson accompanied LT Crutchfield during the survey. Instrument dials on the ship's bridge, radio room, and engine room control center were measured with a Geiger Counter.

2. Radiation emissions were measured using Radiation Alert Inspector EXP, SN 20482, and calibrated 10 July 2006.

3. No radiological emitters were found.
